CNA WEST 2026 SPONSORSHIP

CNA WEST 2026 SPONSORSHIP

CNA West: New Nuclear Horizons, Western Canada's premier nuclear energy conference and a key platform for organizations looking to build visibility, strengthen relationships, and engage directly with the leaders shaping Canada's energy future.

Making its Calgary debut for the second edition of the series, the conference will bring together industry leaders, policymakers, utilities, Indigenous partners, innovators, and supply chain organizations to explore the role nuclear energy can play in supporting a clean, secure, and prosperous Western Canadian economy.

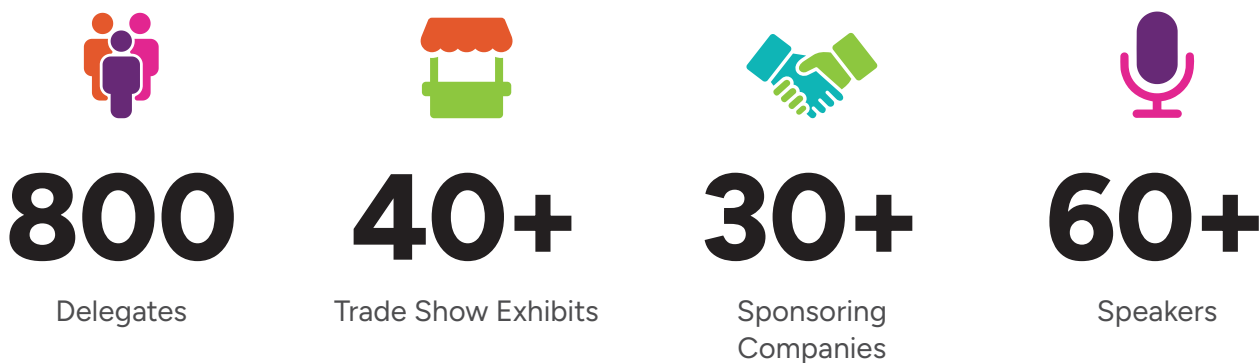

As Alberta advances public and Indigenous engagement on the future role of nuclear energy in the province, CNA West offers sponsors and exhibitors a timely opportunity to connect with decision-makers and showcase their leadership, expertise, and capabilities.

Join us in Calgary from November 2–4, 2026, and position your organization at the forefront of Western Canada's growing nuclear sector through a conference sponsorship.

AT A GLANCE

In 2025, we hosted an audience of over 500+ in our first year holding this event with a waitlist of over 100 delegates from within and outside Canada's nuclear industry.

At CNA West 2026, we are expecting:

(1 available)
